VARIANCE HARDSHIP WORKSHEET

Town of Elsmere Petition Number: 26-14

Property Owners Name: Habitat For Humanity of New Castle County

Person(s) Representing the Property Owner: Kevin Smith

Additional page(s) attached

Applicants, please be aware that the following are the prerequisites to the granting of a variance:

A variance may be granted when it will not be contrary to the public interest where, owing (due) to special conditions, a literal enforcement of the provisions of the Code of The Town of Elsmere will result in unnecessary and undue hardship.

The term "undue hardship" has a specific legal definition in this context and essentially means that without the requested variance, the applicant will have no reasonable use of the subject property under existing development regulations.

Personal medical reasons shall not be considered as grounds for establishing undue hardship sufficient to qualify an applicant for a variance.

Economic reasons may be considered only in instances where a landowner cannot yield a reasonable use and/or reasonable return under the existing land development regulations. You have the right to consult a private attorney for assistance.

In order to recommend the approval of or authorize any variance from the terms of the code, the Planning Commission or Board of Adjustment must find all of the following factors to exist:

- (1) That special conditions and circumstances exist which are not applicable to other lands, structures or buildings in the applicable zoning classification.

Please explain how this applies:
115 Forrest Ave will also be a new construction home so this request won't impede on home owner.

- (2) That the special conditions and circumstances do not result from the actions of the applicant.

Please explain how this applies:
Yes, however the lines and grades requirements were with preparations of two new homes

- (3) That granting the variance requested will not confer on the applicant any special privilege that is denied by the provisions of the code to other lands, buildings or structures in the identical zoning classification.

Please explain how this applies:

No, this is a first time request

- (4) That literal enforcement of the provisions of the code would deprive the applicant of rights commonly enjoyed by other properties in the identical zoning classification under the provisions of the code and will constitute unnecessary and undue hardship on the applicant.

Please explain how this applies:

No, this would get them the same benefits of other neighbors.

- (5) That the variance granted is the minimum variance that will make possible the reasonable use of the land, building or structure:

Please explain how this applies:

Yes, it's only out 3 Feet and still gives spacing to neighbor.

- (6) That the granting of the variance will be in harmony with the general intent and purpose of the code and that such use variance will not be injurious to the area involved or otherwise detrimental to the public welfare.

Please explain how this applies:

No, It's not dangerous to grounds and adds more clearance for home owner.

I understand that all of the above conditions apply to the consideration of a variance and that each of these conditions have been discussed with me by the below-signed Code Enforcement Department representative. I am fully aware that it is solely my responsibility to prove that my petition meets all of the aforementioned criteria.
